Use this worksheet to calculate an approximate Residential Building Permit Fee cost. This worksheet is meant only to be an aid in calculating an estimated cost using your own information. There may be other fees associated with your project that may not be covered in this handout. Contact the City of Post Falls for more information.

Step #1: To calculate a “valuation”, enter the square footages of the areas that pertain to your particular project in each line (do not use commas). Tab to the “Totals” column to carry the amount. *Not all fees may apply*

Area Description	Areaft ²	X	Square Foot Multiplier	=	Totals
Finished Living Area		X		=	
Unfinished Basement		X		=	
Addition to a Residence		X		=	
Garage		X		=	
Stick Framed Accessory Bldg		X		=	
Pole Building		X		=	
Basement Finish – after occupancy		X		=	
Carport		X		=

Covered Deck		X		=	
Patio Cover/ Porch Cover		X		=	
				Valuation Total:	

Step #2: Take the “Valuation Total” from Step #1 to “Table 1-A Building Permit Fees” – (pages #2 and #3 of this handout). Match the “Valuation Total” amount to the left hand column (or round up to the next highest amount). For example a valuation total of \$28,000 would be \$421.55 on the chart. Enter this amount in the Permit Fee line below in the “Totals” column. Add in any additional fees required for your project. *Not all fees may apply*
