EXECUTIVE SUMMARY

Technical Memorandums No. 1 and No. 2 Flow Basins, Conveyance, and Computer Model

Section 1 – Introduction.....	1
Section 2 – Base Map.....	6
Section 3 – Modeling Assumptions.....	11
Section 4 – Rathdrum Prairie Wastewater Model Results.....	22
Section 5 – Flow Routing Through Existing and Planned Infrastructure.....	26
Figures	
Appendices.....	51

Technical Memorandum No. 3 Wastewater Treatment and Discharge Evaluation

Section 1 – Current Wastewater Treatment System Planning.....	1
Section 2 – Regulatory Framework.....	11
Section 3 – Wastewater Treatment Flow and Load Generation.....	30
Section 4 – Treatment Systems for Shared Tier Study Area.....	41
Section 5 – Potential Reuse Opportunities in the Study Area.....	53
References.....	78
Figures	
Appendices.....	81

Technical Memorandum No. 4 Infrastructure Cost Allocations for Capital Improvement Planning

Introduction.....	1
Section 1 – Collections Costs for Shared Tier	1
Section 2 – Collection System Upsizing Costs for Exclusive Tiers	4
Section 3 – Treatment Costs	7
Section 4 – Reuse Transmission, Storage, and Land	11
Section 5 – Collection System, Treatment and Reuse Cost Summary.....	14
Figures	
Appendices	20

Technical Memorandum No. 5 Capital Improvement and Implementation Plan

Introduction.....	1
Section 1 – Unit Cost Assignments	1
Section 2 – Collection System Staging Options.....	2
Section 3 – Reuse Priorities	7
Section 4 – Potential Funding Sources	12
Section 5 – Shared Tier Operations, Maintenance, and Replacement Impacts	16
Section 6 – Policy and Implementation Recommendations	17
Figures	
Appendices	26
