

## **Parks & Recreation Reopening Schedule**

### Stage 1 - Beginning May 1

- Restrooms – Will use a staged approach to start opening the public restrooms in parks. Regional Park restrooms open with portable units in some locations to reduce overall staff maintenance requirements, where practical flush restrooms will only open one family restroom unit to serve that same purpose.
- Pickleball – Currently open to drop-in use; no league play allowed. This will remain open if social distancing is practiced. Have experienced some issues with social distancing and are asking the Association to self-regulate this problem. May have to consider removing some of the nets if this continues to be a problem.
- Tennis – Currently open to drop-in use; no league play allowed. This will remain open if social distancing is practiced.
- Skate Park will reopen, and use will be monitored.

### Stage 2 – Target date of May 16

- Playgrounds – The City will start opening the playgrounds in phases. Cleaning guidelines as established by the CDC become an issue with the long tube slides and the City will consider keeping those closed. We will also keep some of the fencing in case we reverse phasing and need to close playgrounds again in the future. Signs will be posted with COVID-19 information and disclaimers.
- Fitness equipment will reopen.
- Outside Sports Leagues - Sports fields will open for practice use only with social distancing and adherence to prevent influx of out-of-state visitors.

### Stage 3 – Target date of May 30

- Park furniture is deployed to park shelters at 50% occupancy of typical and available for reserved use with statements on observation of social distancing.
- Basketball courts and beach volleyball courts open.
- Outside Sports Leagues – Sports fields are open for games and scrimmages of multiple teams with similar observation of social distancing statement.
- Sports Field Rentals will resume.
- Recreation Classes – will break out in size by under 10 participants and under 25 participants. Staff is also looking at some remote classes for children at home where

they would have an am session, lunch and then an afternoon session. Programs like Zoom would be considered.

- Will start placing picnic furniture in parks.
- Shelters – small rentals under 50 will happen.
- Disc golf leagues will resume.
- Modified small indoor and outdoor classes and day camps will begin operation.

#### Stage 4 – Target date of June 13

- All standard park furniture in place throughout
- Shelters will be fully open.
- Splash Pads will open and will be monitored.
- Department Sports Leagues – Youth and Adult will start towards the end of July. Will consider some small sports clinics prior to this date.

#### Dates to be determined

- Return of Special Events – Looking at opportunities to host some special events while still meeting the social distancing guidelines. Events with expected participation under 50 will start in June and events with expected participation over 50 will not start back up until July.
- Beach fencing will come down after the dam gates close. The beach will be non-guarded because of our inability to get guards trained this spring.
